

SAM SREYPICH

WEB DEVELOPER

EDUCATION

SETEC INSTITUTE

2021 – Present: fourth-year student in MIS (Management Information Technology) at SETEC INSTITUTE.

HIGHT SCHOOL

2021 : Graduate from Hun Sen Tek Klang Hight School

WORK EXPERIENCE

While I do not have formal work experience, I have actively developed my skills through academic projects and independent learning. Here are the key projects I have worked on:

1. Personal Blog Development

- Designed and built a web blog using PHP for backend development.
- Created a dynamic user interface using HTML, CSS, and JavaScript.

2. E-commerce Website

- Developed a fully functional e-commerce platform.
- Used Vue.js for frontend development, ensuring a seamless and interactive user experience.
- Implemented backend functionality using Laravel to handle complex business logic.
- Utilized Bootstrap to create a responsive and visually appealing layout.

These projects allowed me to gain hands-on experience in full-stack web development, problem-solving, and teamwork, enhancing my understanding of real-world application development.

SKILLS SUMMARY

- Frontend: HTML, CSS, Bootstrap, JavaScript, Vue.js
- Backend: PHP, Laravel
- Database: Mysql
